

REMARKS

After amendment, claims 1-26 and 31-32 remain pending in the present application. Claims 27-30 were canceled previously pursuant to the Examiner's restriction requirement. Claim 1 was amended previously *without prejudice*. Applicants file this amendment to delete the term polymorph in claim 1, to which the Examiner has objected. Applicants note that they may wish to file a divisional application directed to subject matter which has been cancelled from the instant application, including subject matter which is based upon the acetylenic moiety.

Support for the amendment to the claims can be found in the original application and claims. The amendment to the claims simply deletes a term from claim 1. The amendment is clearly supported by the present application.

The Examiner has rejected previously filed claims 1-26, 31 and 32 under 35 U.S.C. §112, first paragraph for inclusion of the use of the term "polymorph" in the claim. It is respectfully submitted that Applicants have addressed this rejection by virtue of deleting this term from claim 1. It is respectfully submitted that the claims are now in compliance with 35 U.S.C. §112, first paragraph.

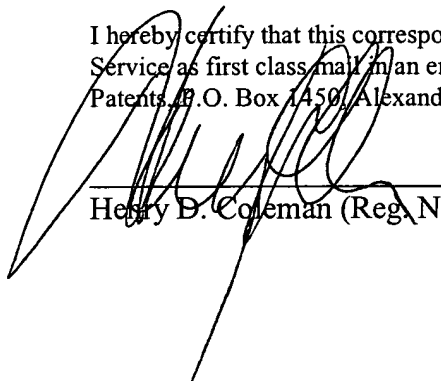

For the above reasons, Applicants respectfully submit that the application is in condition for allowance and such action is earnestly solicited. Applicants have neither cancelled nor added any claim. No fee is due for the presentation of the instant amendment. The Commissioner is authorized to charge any fee due or to credit any overpayment to deposit account 04-0838. The Examiner is cordially requested to call the undersigned attorney if the Examiner believes that a telephonic discussion may materially advance the prosecution of the instant application in any way.

Respectfully submitted,
COLEMAN, SUDOL & SAPONE, P.C.
